What is Physician Support Services (PSS) ?

PSS is a confidential, complimentary program designed to support AMITA Health physicians and their families. Consistent with the AMITA Health mission to provide whole person care, this program strives to link you and your family members with quality care in support of your personal and professional well-being. Via our partnership with AMITA Health through the PSS program, we provide individual, couples, and family counseling, as well as on-site resources and supports, including opportunities for CMEs, workshops, and retreats. If/as needed, we also link you and your family to other professional resources in the community. The same level and quality of services are offered to you as to our other clients. The utmost confidentiality and privacy are ensured in meeting your needs.

Billing

PSS billing is handled in the same way as for other people served by the practice. As a courtesy to you, our staff will assist you with your in- and out-of-network insurance submissions.
